

## CUP CONES Rubber coated cup cones, suitable for both manual and computerised engravers.

Ideal for glass engraving on all machines, where extra grip is needed.  
Please state machine type when ordering for correct fitting.

## RUBBER COATED FACE PLATES

Ideal accessory for gripping the base of rotary items. Screws directly to the base spigot. Especially useful when glass engraving. Increases grip without adding pressure.

## STATIC DIAMOND SPINDLE

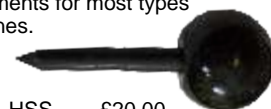

Replacement static diamond spindles, holders and shafts for Kanto and Mastergrave manual machines. Also available to fit Gravograph. Complete with diamond cutter.

## TRACING STYLUS

Replacements for most types of machines.

STYLUS1 HSS £20.00
