Broad Plastic	NC10	£16.95
Broad Metal	NC11	£16.95
Swivel 2.5mm	NC01-25mm	£60.00
Swivel 5mm	NC01-50mm	£60.00

MANUAL NOSE CONES

Fine Plastic	NC04	£12.95
Medium Plastic	NC02	£12.95
Medium Metal	NC03	£12.95
Broad Plastic	NC06	£12.95
Broad Metal	NC07	£12.95

For swarf extractor nose cone, see page 13

Can be clamped to almost any computerised and manual engraving machine. Quick release mechanism for rapid changing of engraving material. Available with standard and raised versatile jaws.

VERSATILE VICE

VV-EJ Standard low jaw	£125.00
VV-MPJ Raised multi-purpose jaw	£135.00
VV-BSJ Both sets of jaws	£145.00

SWARF BRUSH

Nylon BRUSH1 £1.95

Brass wire BRUSH2 £1.95

DE-BURRER

M0084 £10.95
With extra blades

Remove rough edges from your plates cleanly and safely. Remember, the size of a burr on the back of a metal plate, is enough to give uneven depth of engraving on computerised engravers.

M0081 £3.75
Single blade

ENGRAVERS LEVEL

The easiest way to level the surface of items when using the tilt mechanism on your engraver. Also useful when used on a floating pantograph to set the right working height.

BUBBLE £1.30

DRIVE BELTS

We stock a wide range of drive belts, suitable for all manual and computerised machines.

Prices from £13.00

RULE

A handy 12" metric and imperial rule. Ideal for measuring engraving areas on plates and checking existing engraving.
