

EGX-20

Now anyone can produce beautiful, professional engraving of text and scanned graphics right from their computer. Roland designed the EGX-20 to be remarkably easy to operate, even for beginners. The EGX-20 is large and powerful enough to handle a wide variety of engraving jobs, including awards, product serial numbers, office directories, personalized items and more, yet small enough to fit comfortably on your desktop. Thanks to its intuitive joystick and dial controls, operation is uncomplicated for both novices and experienced professionals. The EGX-20 includes everything you need to get started immediately, including a complete suite of engraving software.

(8 1/2" x 6 3/4")

Engrave Various Materials

Active Surface Tracking

EGX-30A

The EGX-30A makes engraving easy. Simply use the software to design your badge, nameplate or plaque. Then, with a push of a button, the desktop device automatically detects the material's thickness when the tip of the nose guard touches the surface. While engraving, you can effortlessly adjust the feed rate and spindle rpm by simply turning the knob located on the control panel.
