CAN'T FIND A JIG TO HOLD YOUR ITEM?

At Mastergrave, we try to offer the most comprehensive range of jigs for both manual and computerised engravers. But, sometimes, items are so irregular, or too thin to clamp in jigs. Use the Mastergrave sticky tin, gently press the item into the modelling putty in the tin and then clamp the tin in the vice and engrave as normal.

STICKY TIN
55mm

STIN £5.50

If you have a specific engraving problem and need some advice, call Mastergrave.
